SUMMARY

An undergraduate Software Engineering student specializing in backend development, with experience in building and managing APIs. Proficient with a diverse tech stack including Go (Golang), Express, NestJS, Flask, and Laravel. Skilled in various databases like MongoDB, MySQL, PostgreSQL, SQLite, and Firebase, and possesses a solid understanding of frontend integration. Also familiar with mobile development using Flutter. Eager to learn and contribute to impactful projects. See my work at https://portfolio-rizqiansyah.vercel.app/en.

EDUCATION

Global Institute Technology And Bussiness   2022 - 2025 (Expected)
Undergraduate in Software Engineering
- GPA: 3.70/4.00

WORK EXPERIENCE

PT. Sanken Indonesia   2023 - 2024
Internship - Quality Control
- Conducted quality checks on refrigerator units to ensure compliance with company standards.
- Collaborated with the production team to identify and resolve defects during the manufacturing process.

TRAINING

- One Day Experience as It Team, Visionet, October 2023.

CERTIFICATES

- Alibaba Cloud Certification, issued by Alibaba Cloud, valid until 15 Oct 2025

TECHCNICAL SKILLS

Programming
- Skilled in backend frameworks: Express, Flask, Laravel, NestJS, and Go (Golang)
- Proficient in API integration and design with TypeScript and JWT authentication

Database Management
- Expert in databases: MongoDB, Prisma, PostgreSQL, MySQL, Firebase, SQLAlchemy, SQLite

Backend/API Design
- Experienced in designing efficient, secure, and scalable APIs using modern methodologies.

ADDTIONAL SKILLS

- **Soft Skills**: Collaboration, Communication, Problem-Solving, Time Management
- **Languages**: Indonesian (Native), English (Intermediate)
- **Tools**: Visual Studio Code, Git, GitHub, Postman, Docker
